

Time Trial Registration for 2016 Australia IVF World Sprints

Eastern Trial – September 19th – Parry Sound Canoe Club, Ontario

Western Trial – October 11th – Burnaby Lake, Burnaby BC

To compete for a position on Team Canada 2016, all paddlers must be registered online by September 7th.

*Predetermined crews must register to guarantee an available spot by September 7th.

At this time a fee of \$20 will be due. This fee will go toward the expenses of running trials. Full IVF race fees will be collected in November from the final selected athletes. Please forward this completed registration form as soon as possible to secure your spot for Eastern or Western Time trials.

Pre-Established V6 Crew Registration for 2016 Australia IVF World Sprints

***** One Application per crew to be completed ONLY by Crew Captain *****

Pre-Established crews may be available in each gender and age category. Team Canada is eligible for 6 entries in each category, therefore as long as 30 paddlers or less (5 full crews) are not registered in that specific gender and age category a predetermined crew may fill one (or more) of Team Canada's allotted entries. If your team is interested, please register to race. Open spots will only be filled by those who have registered.

Please refer to the selection criteria document excerpt next page for details regarding pre-established crew selection. Full document located on CORA Website > IVF Sprints > Team Selection

Captains will be notified by September 10th if there are open spots for predetermined crews.

Pre-Established Crew Name & Club: _____

Name of Team Captain: _____

Email: _____ Phone: _____

List all paddlers on crew:

1.	2.
3.	4.
5.	6.

Important notes:

- Paddlers who qualify for Canada crew positions based on their OC-1 trials will be offered these positions regardless of whether they are a member of a Pre-established crew. In this case, they will have to choose one or the other crew within five days of learning their placements. In the case this paddler accepts their Canada crew spot, it is up to the Pre-established crew to find a replacement paddler or they will forfeit their entry.
- A crew requiring a replacement paddler can contact the Technical Leader for the next paddler in the OC-1 rankings but are ultimately responsible for filling their own crew.

RACE CATEGORY: ☐ MEN ☐ WOMEN **Fee: Applicable for OC1 time trials only**

Junior 16/19	<input type="checkbox"/>	Masters 40	<input type="checkbox"/>	Masters 60	<input type="checkbox"/>
Open	<input type="checkbox"/>	Masters 50	<input type="checkbox"/>	Masters 70	<input type="checkbox"/>

SEEDING V-6 ENTRIES:

IMPORTANT: It is strongly encouraged that all paddlers in a pre-established crew race the OC-1 race at trials as the results of this event will be used to seed V-6's for World's lane placement and for V-12 selections. At Worlds, crews are seeded based on the ranking they hold in their country. The Area Coordinator is requested to submit the seeding of the countries teams prior to the event. As Pre-established teams may be faster than Canada teams, all teams in a category will be seeded based on the OC-1 rankings of their 6 paddlers (including steersperson).

A paddler *without* an OC-1 result will be ranked following those with results, except in extenuating circumstances, whereby ranking will be at the discretion of the Technical Leader and Sprint Council.
